What is Aphasia?

Every 5 minutes somebody has a **stroke**. One in 3 will have **Aphasia**.

Aphasia affects more than **350,000** people in the UK

"I know what I want to say. I just can't find the words."

Aphasia is most commonly caused by **stroke**, but can be caused by head injury or brain tumour

Aphasia can affect **speaking, reading, writing** and sometimes **understanding**. It does **not** affect intelligence.
