

Mobile/Tablet Zoom Help #1

FAQS

- 1) Starting a meeting..... 2
- 2) How do I get the video and audio working?..... 3
- 3) How do I change the 'Speaker View' on screen?.....7

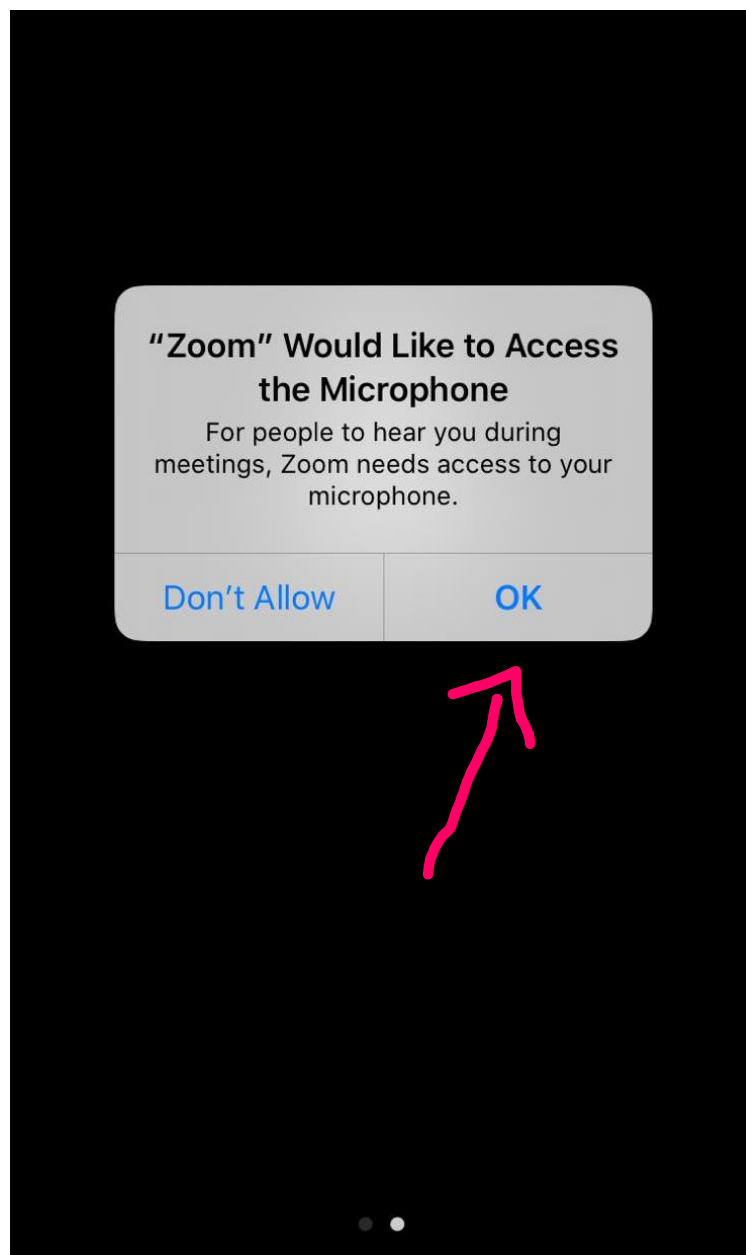

Starting a meeting

First you need to agree to Zoom's Term of service, Tap 'I agree'

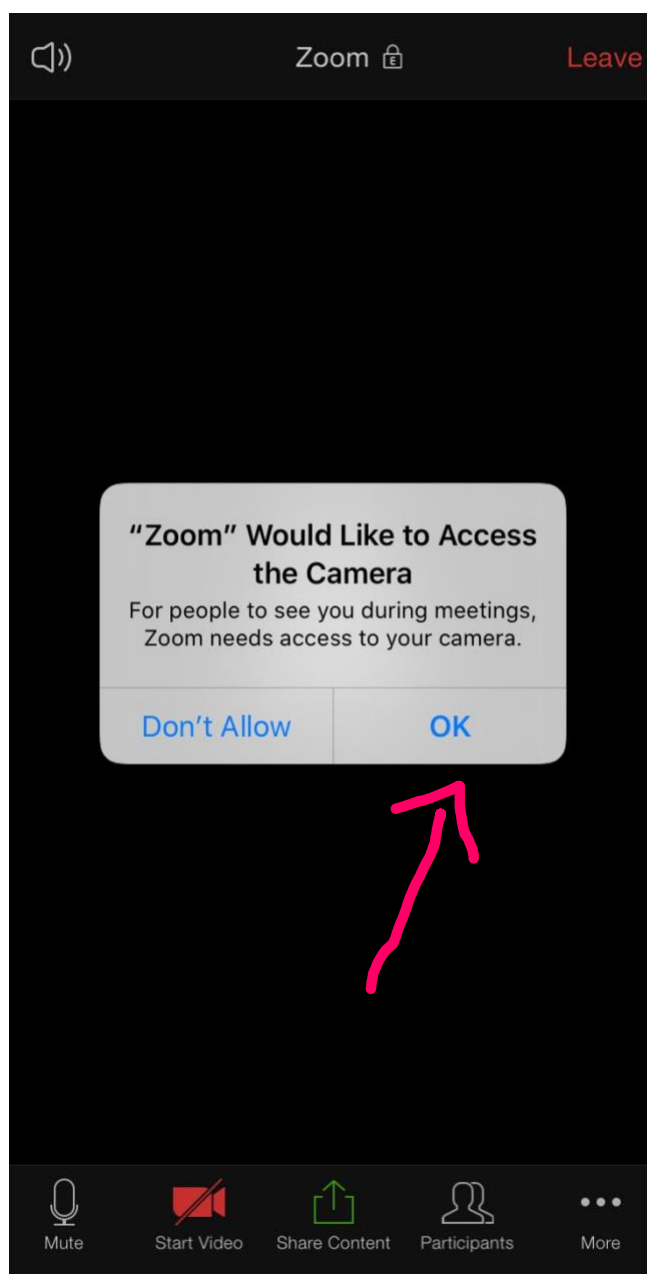

How do I get the video and audio working?

When you first join a meeting you need to give Zoom **access to your microphone** by tapping **OK**

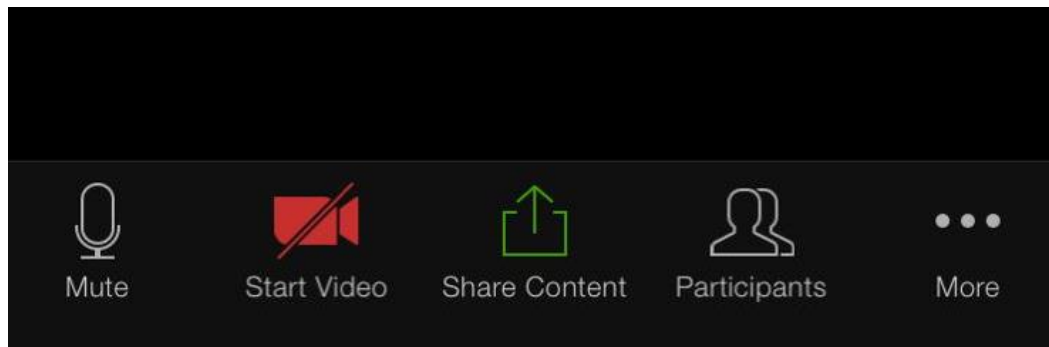

The same needs to be done for video too, you give Zoom access to your camera by clicking OK

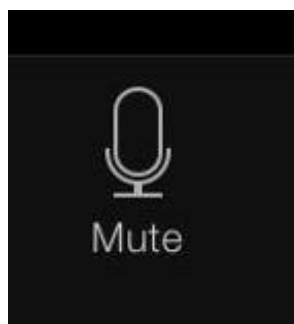

For more help:

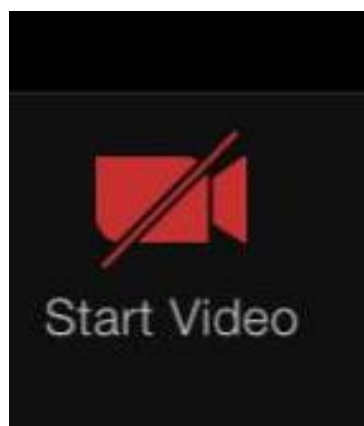

- **Tap** these icons in the **bottom left corner**.

- **Tap** the **microphone** to **mute** or **unmute** yourself and **access your sound settings**

- **Tap** on the **video camera** for **video**

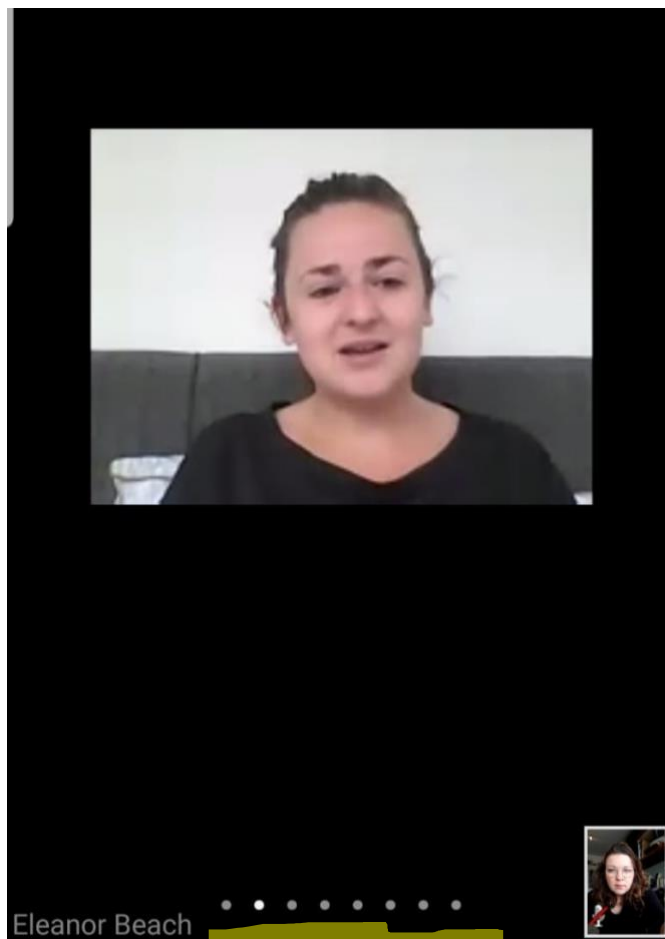

Full Screen should look like this:

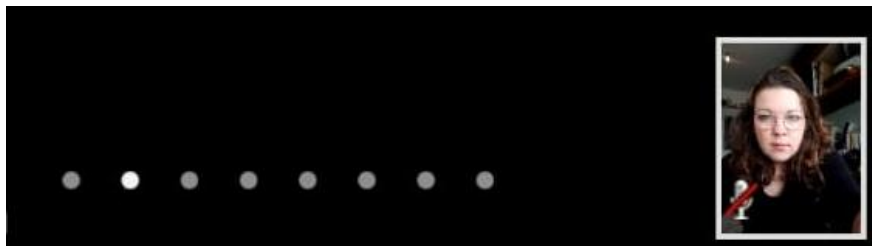

How do I change the Speaker view?

As the screen is smaller on a tablet or phone it can be difficult to see **all participants at once**.

Automatically your screen will look like this with **one speaker**

The at the **bottom of the screen** represent the **different views**

You can **swipe on the screen** to change the view

Like this.

You can **swipe between the screens to view all participants.**
